

# Programme Overview and Schedule of Timetabled Activity

Chartered Manager  
Degree  
Apprenticeship  
(Health and Care)  
with Mary Seacole

April 2024 CMDA  
Health and Care

# Introduction

Embarking on your study journey is the start of an exciting new phase of your career. This document provides key information that you will need as you progress throughout your programme. Keep it safe and refer back to it during your programme journey to help keep you motivated, chart your progress and ensure you are on track.

## **It includes:**

1. A programme overview that outlines the structure of your programme and the key stages of your journey
2. How you will study and learn
3. Your programme timetable to allow you to plan your time effectively and work through the programme in a structured and meaningful way

# Programme Overview

At Arden University, we want to do things differently, and we believe in doing things better. Our purpose is to deliver outstanding impact, convenience and relevance to the learners, graduates and employers of today and the future.

We believe that future global graduates should be equipped with lifelong employability skills to harness the power of technology, thrive in their careers and better serve their communities.

This programme builds on that heritage and our belief in harnessing pioneering technology to support a breakthrough apprenticeship programme.

We have worked with employers to design and deliver a programme that develops your Knowledge, Skills and Behaviours against the requirements of the apprenticeship standard, whilst helping you to stand out from your peers and fulfil your potential.

# Your programme is split into four stages

## 1. Induction

Induction sets you up for success from the outset. We will introduce you to your programme, how you will learn and how we will support you. You will have the opportunity to meet your coach and the other learners who will be part of your cohort and are starting at the same time as you.

## 2. 'On Programme'

You will study the knowledge modules on your programme, attend 1:1 coaching sessions and undertake workplace assignments and coach-led activities. Your coach will guide you to ensure you are effectively applying and evidencing your new knowledge, whilst developing and demonstrating the skills and behaviours considered essential for success in your role. Your time on programme includes attending mandatory teaching sessions during your working hours, in addition to self-directed independent study.

## 3. Gateway

Gateway is the point where your coach and line manager will review if you have acquired all of the knowledge, skills and behaviours stipulated in your apprenticeship standard and can proceed to End Point Assessment.

## 4. End Point Assessment

End Point Assessment (EPA) is the final stage of the apprenticeship award where you will demonstrate your achievement of the final requirements of the apprenticeship requirements.

# How you will learn

**You will learn through a blend of self-guided online learning, mandatory timetabled teaching delivered online, and 1:1 coaching.**

You will have:

- 24/7 access to our virtual classroom, **ilearn**, for flexible self-guided online learning.
- Live teaching sessions hosted by our academic tutors online.
- Regular 1:1 coaching sessions to facilitate continual workplace application of new KSBs and e-portfolio evidence.
- Regular tripartite progress reviews with your coach and line manager.

Most teaching is delivered via:

- 2-hour **Impact Workshops** to help you to understand and develop the knowledge, skills and behaviours from the apprenticeship standard, work on your portfolio, stretch and challenge you, and learn from other apprentices.
- 1-hour **Assessment Workshops** to provide guidance on module assessments.
- 30-min **Seminars** as group question and answer sessions.
- Optional 1-hour **Resit Support Workshops** to provide extra support for learners who do not pass a module at the first attempt.

Depending on the programme you are studying, we also include **Professional Practice Workshops** to work on your apprenticeship portfolio, and **Project Workshops** to support you with your independent research skills as you work through your final project module.

Your timetable at the end of this guide sets out the teaching sessions you will complete and when each one will take place.

# Off the job hours and time commitment

Your employer has committed to allowing you a minimum of 6 hours “off the job” time per week throughout the programme, to spend developing yourself in line with the knowledge, skills and behaviours of the apprenticeship programme. You will complete your off the job time during your contracted hours. Your off the job time might include:

- Formal study
- Learning new and relevant theories and tasks
- Practical workplace application to embed new learning into your role
- Shadowing, being mentored and spending development time with others
- Attending relevant training and courses
- Working on assessments.

Your programme is broken down into knowledge modules, and workplace skills and behaviours development activities, each with assessments and deadlines. This helps you and your Coach to monitor your progress and ensure you are on track.

Every apprentice is unique and differs in their workplace experiences and higher education history. Each learner will

therefore differ in the amount of time they may spend on their learning as they progress through the programme. **You may find you need to spend some of your personal time studying to successfully complete the programme.**

You will also have regular tripartite review meetings with your Coach and line manager. Your line manager must participate in these reviews. Each review will include discussions on your learning and progress, including how you spend your off the job time, your future progression and development opportunities, how you are developing evidence of the knowledge, skills and behaviours, any challenges and concerns you may have, and target -setting to keep you on track. You will have additional touch points with tutors and coaches throughout your apprenticeship. Further reviews will be scheduled if your progress shifts from ‘expected progress’ to ensure that you are fully supported.

Your timetable will help you to understand the structure of your programme and when your teaching and assessment deadlines take place. Please add your timetabled classes and assessment deadlines into your workplace diary.

Please note that we may sometimes need to adjust the dates and times published in this timetable. Where this happens, we will notify you as far in advance as possible using your Arden University email account.

## Programme Overview

### Chartered Manager Degree Apprenticeship, Health and Care

Level of Study	Module Code	Module Title	Duration	Year	Study Block(s)	Assessment Deadline	Taught Sessions	Self-Guided Study	Coaching
4	HCM4002DA	Meeting the Needs of Service Users	1-Block	2024	May-Jul	01 July 2024	You will be placed into a cohort group with a regular study day and time slot for the duration of your programme.	In addition to and alongside the timetabled teaching sessions in each study block, you should schedule time to complete the ilearn lessons and activities for each module.	You will attend 1:1 Coach Reviews and Tripartite Reviews regularly throughout each study block.  Your coach will organise these with you on a 1:1 basis.
