Welcome from *Carl Lygo*

We believe that everyone has the potential to achieve and make a real difference to the world in which we live. We are here to support you to maximise your potential in a professional and friendly environment. It is an exciting time, with lots of new things to learn and skills to develop.

The Arden team and I are here to support you on this amazing journey you're about to embark on. Don't be afraid to ask for help, that is what we love to do.

If you have any questions, please feel free to get in touch for a chat and we can answer any questions you might have.

Thank you for placing your trust in Arden University.

Professor Carl Lygo

Vice-Chancellor and
Chief Executive Officer

Study in Germany with Arden University

Here at Arden University we're excited to give you the chance to study with us and gain a life-changing degree in the heart of Berlin. A dynamic city that offers everything you need to have a rewarding study abroad experience.

Full-time study in Berlin with Arden gives you the opportunity to gain a bachelor's or master's degree while experiencing life and study in an exciting and welcoming multicultural destination. It's the perfect launchpad from which to take your professional life to the next level, whichever career stage you're currently at.

When you study with us, you'll be joining a diverse community of students who all share the ambition to succeed in their lives and careers. Join us in Germany and take advantage of the fantastic career and networking opportunities we make available to our students.

***3 x Higher Education
Investor award winner***
2022, 2023, & 2025

Studying with *Arden University*

Joining Arden to study your degree offers you a choice of accredited and career-focused programmes that will help you take your career to the next level.

You'll study your course through regular face-to-face seminars with your course lecturers at our Berlin campus, which features modern and comfortable facilities in the heart of the city.

Each module of your course is completed over a 9-week period, and each week will require a minimum of 42.5 hours of study time.

Alongside your core modules, you'll also have opportunities to take part in activities such as academic skills workshops, language support, careers sessions and 1:1 support, helping you build the skills and confidence to succeed.

Student support *services*

We understand that joining us from overseas can feel quite daunting, which is why we offer personalised support to help you through your studies with us.

There is a wide range of support on offer to you, including academic and personal support services.

Academic support

Lecturers are on hand to help you with any academic issues and are available at your study centre.

We also have a team of Academic Skills Tutors who can help you with a wide range of academic skills such as referencing, research, and academic writing.

Student support

Once you start your studies, you'll have access to our dedicated student support team.

Understanding, approachable and ready to help, they're here to help you manage and progress through your course and share in your celebrations when you succeed.

The student support team helps you with:

- **Time management**
- **Motivation**
- **Financial concerns**
- **Disability support**
- **Special Educational Needs support**
- **Mental health and wellbeing**

Student support

Arden University Berlin careers service is readily available to provide you with one-on-one, personalised support in:

- Providing career advice and counselling
- Finding a job or internship
- Reviewing CV, LinkedIn profile, and cover letter
- Setting up practice job interviews to prepare students for any questions they might face in real life
- Providing guidance and coaching specific to the Berlin job market, such as opportunities for non-German speakers and understanding German contracts

Additional support

Student forums

Platform to engage with staff and student reps, and provide feedback.

Mental health support

We take the mental health of our students incredibly seriously, so offer free access to online 24/7 mental health services as well as wellbeing support on campus.

Our online library

Free access for all students to a digital online library with a huge range of academic books and textbooks

Student representatives

They help project the student voice to staff, something you may be interested in doing when you join us.

About our *Berlin study centre*

Since our founding in 2018, Arden University Berlin has been providing career focused degree courses to talented and ambitious students from all over the world.

With your success in mind, we deliver high quality education from our centrally located Berlin campus, which is equipped with all the essential services needed to provide the best learning experience to our students.

Berlin isn't just the most popular European destination for overseas students, the German capital also has a thriving economy, rich cultural heritage, and offers an enormous range of career opportunities for international students and graduates.

Our recently opened campus is centrally located in Berlin's international business district. We offer undergraduate, postgraduate, and MBA courses that prepare you to pursue job opportunities and progress your career after your studies.

You'll also be able to apply for an 18-month work visa in Germany after graduating from your course.

For students looking for things to do in Berlin, the city offers a diverse array of cultural experiences.

Explore contemporary art at the East Side Gallery, where sections of the Berlin Wall showcase intricate murals and political statements. Mauerpark, a popular spot on weekends, hosts flea markets, street performances, and open-air karaoke sessions, fostering a lively atmosphere.

You can also immerse yourself in Berlin's techno music culture by visiting renowned venues like Berghain or Watergate, known for their dynamic beats and avant-garde performances.

Or, you might consider volunteering at the Berlinale Film Festival, a globally acclaimed event, or participating in community initiatives at Tempelhofer Feld, a former airport transformed into an expansive public park.

Student life in Berlin

Berlin is home to more than 200 thousand students, which makes it one of Europe's most prominent global higher education destinations.

The appeal of studying your degree here is clear – Berlin truly caters to students from a wide range of backgrounds and cultures.

BA (Hons) Business Management

Arden's undergraduate degree in business management will teach you the modern skills, competencies, and technological know-how required to lead and manage successfully in today's business environment.

The course will provide you with a taste of all the fundamentals of business, so you don't need to have a particular career path in mind to enrol on the course.

As you explore areas of business such as finance, digital marketing, innovation, people management, and data analysis, you will start to form ideas about where you want to go in the future.

This course is accredited by the Chartered Management Institute (CMI).

Website course page →

BA (Hons) Business Management with Foundation Year

Are you interested in a career in business management but not sure if you're ready for university study? Our business management degree with foundation year has been designed to prepare you with the skills and knowledge to succeed in higher education.

This course is the ideal choice if it's been some time since you last studied or if you don't have the qualifications needed to enter a standard university degree course.

After reviewing key academic study skills during the foundation year, you will gain the modern skills needed to lead and manage in today's business environment.

This course is accredited by the Chartered Management Institute (CMI).

Website course page →

BA (Hons) Business Management (Human Resource Management)

This degree course brings traditional human resources management practices into the modern era. You will gain the most up-to-date knowledge of successful HR functions and how people and culture can be utilised in the contemporary business environment.

The course will equip you with strong business skills for your career. You will gain broad knowledge in key areas of business management, including people management, how modern organisations function, the development of high-performance teams, talent management, rewarding performance, and people analytics.

This course is accredited by the Chartered Management Institute (CMI).

Website course page →

BA (Hons) Business Management (Human Resource Management) with Foundation Year

This foundation programme combined with an undergraduate degree provides you with the opportunity to really focus on your study skills before developing skills in business and human resource management.

This course is the ideal choice if it's been some time since you last studied or if you don't have the qualifications needed to enter a standard university degree course.

After reviewing key academic study skills during the foundation year, you will gain key business and HR skills that can be applied globally to a range of sectors.

This course is accredited by the Chartered Management Institute (CMI).

Website course page →

BA (Hons) Business Management (Marketing)

Studying marketing with Arden means you'll learn the latest and most in-demand skills and competencies required to become a successful marketing professional, combining both traditional and digital marketing knowledge with real-world applications.

The course has been developed with direct input from leading organisations and researchers. That means you will be introduced to the most relevant advancements in the contemporary marketing world, all while developing the robust knowledge sought after by today's employers.

This course is accredited by the Chartered Management Institute (CMI), the Chartered Institute of Marketing (CIM), and the Digital Marketing Institute (DMI).

[Website course page →](#)

BA (Hons) Business Management (Marketing) with Foundation Year

This foundation degree programme provides you with the opportunity to develop your study skills before focusing on business and marketing in depth, helping you complete your undergraduate degree with confidence.

This course is the ideal choice if it's been some time since you last studied or if you don't have the qualifications needed to enter a standard university degree course. Once your foundation year is complete, you will develop your knowledge in key areas of business management and the skills required to become a successful marketing professional.

This course is accredited by the Chartered Management Institute (CMI), the Chartered Institute of Marketing (CIM), and the Digital Marketing Institute (DMI).

[Website course page →](#)

BA (Hons) Business Management (Tourism)

This business management and tourism course will allow you to explore your own management and leadership potential while getting a grasp of the bigger picture across the tourism sector, helping you launch a successful career in tourism.

The course has been developed with input from leading organisations and researchers to expose you to the most relevant advancements and trends in the tourism industry.

This means you will be able to show future employers that you have the knowledge required to fill current skills gaps in the field.

This course is accredited by the Chartered Management Institute (CMI), the Institute of Travel and Tourism (ITT), and the Tourism Management Institute (TMI).

Website course page →

BA (Hons) Business Management (Tourism) with Foundation Year

This foundation degree allows you to develop the academic skills you need to successfully complete an undergraduate degree, followed by in-depth knowledge about the tourism sector from both a local and global perspective.

This course is the ideal choice if it's been some time since you last studied or if you don't have the qualifications needed to enter a standard university degree course.

Once your foundation year is complete, you will gain the latest management and tourism skills needed for a successful career in the field.

This course is accredited by the Chartered Management Institute (CMI), the Institute of Travel and Tourism (ITT), and the Tourism

BSc (Hons) Health and Care Management

Are you a current or aspiring healthcare professional looking to develop the skills to excel in leadership and management roles across the health and care sector? Then Arden's health and care management course is the right step for you.

The course reflects the growing demands of the sector, giving you real insight into the challenges faced by today's healthcare professionals. That means you'll graduate with the practical skills to take on senior-level responsibilities in organisations across the globe.

This course is accredited by the Chartered Management Institute (CMI) and endorsed by the Institute of Health & Social Care Management (IHSCM).

[Website course page](#) →

BSc (Hons) Health and Care Management with Foundation Year

Do you want to develop the skills to excel in leadership and management roles across the health and care sector, but aren't sure if you're ready for university study? Then this is the right course for you.

Designed to equip you with the skills you need to progress to degree-level study, the course will help you establish a career within the health and social care sector, even if you don't have the academic qualifications to join a standard undergraduate degree course. The foundation year is perfect if you need a little extra support to start your journey to higher education, offering study skills and guidance at every stage.

Website course page →

Master of Business Administration

This MBA course has been developed to help new graduates take the next step in their career, even if you have no previous work or managerial experience. You'll graduate with a full MBA and the skills to start a rewarding career in business and management.

The ideal option if you're fresh out of your undergraduate degree or have limited work experience, this course gives you the unique opportunity to use your MBA qualification as a gateway into a managerial role. You'll develop in-depth industry knowledge of contemporary business operations and the ability to apply emerging trends and innovations to leverage strategic business transformations.

[Website course page →](#)

MSc Project Management

This postgraduate degree in project management gives you the hands-on strategic and leadership skills needed to forge a career in the dynamic field of project management. You'll graduate with the knowledge and skills to execute large-scale, global projects.

The course will bring you up to speed with the latest in project management. That means you'll gain practical skills in leading projects to success using the latest project management skills, theories, and techniques. You'll also learn how to use organisational initiative to fulfil a range of projects across diverse international industries.

This course is accredited by the Chartered Management Institute (CMI), and the Association for Project Management (APM).

[Website course page →](#)

MSc Strategic Digital Marketing

Designed for professional marketers looking to move into more senior roles, this course will teach you the core principles and skills at use in marketing today. You'll graduate with the ability to successfully manage high-level creative global marketing plans.

Taking a modern, global, and practice-based approach, the course is regularly updated to reflect the latest insights from leading industry experts. You'll gain knowledge of the latest trends in marketing such as big data, user experience (UX), Martech, and AI alongside skills in brand building, leadership, and digital creativity.

This course is accredited by the Chartered Institute of Marketing (CIM) and the Digital Marketing Institute (DMI).

Visa information

for students studying
in Berlin, Germany

To study long-term in Germany (longer than 90 days), you will need to apply for a Student Visa. You will also need to obtain a Residence Permit once you arrive in Berlin, which you can apply for at the German Foreigners' Office.

Although it may seem daunting at first, the visa application process is nothing to worry about, and our dedicated team are here to help you with advice and guidance if you run into any difficulties.

We also recommend that international students open a blocked bank account to help the visa application process run more smoothly. A blocked bank account is simply a bank account that contains funds which you will only be able to access once you arrive in Germany. Opening a blocked account will reassure the German authorities that you have access to sufficient funds during your time studying in Berlin.

Here is a step by step guide to the *German Student Visa* application process

1

Having met the entry requirements for your course and submitted your documents, you will get an acceptance letter from Arden University Berlin.

2

Next, contact the German embassy or consulate in your home country to find out about the visa process.

3

Prepare your documents as the embassy requests.

4

You will have an interview at the embassy to give some background information about who you are and your reasons for travelling to Germany.

5

Your visa confirmation will take approximately 2-3 months to arrive, depending on your home country.

6

You will receive your Student Visa, ready to join us and start studying in Germany!

Documents you will need to submit to your local German embassy include:

- A valid passport
- 3 passport photos (with biometric passport specifications)
- Proof of finances
- Letter of acceptance from Arden University Berlin
- Academic certificates from your previous studies
- Proof of English language ability and the Residence Permit fee
